

# 氣候觀測資料查詢服務操作手冊

## Climate Observation Data Inquiry Service Operation Manual

### 一、進入首頁(Enter the homepage)：

- 1、網址(Website address)：https://codis.cwa.gov.tw。
- 2、點選「資料瀏覽」(Click “DATA BROWSING”)。

3、

### 二、查詢測站資料(Query the observation data)：

1、

- 2、篩選測站：藉由勾選與否來篩選右方地圖是否顯示「署屬有人站」、「自動雨量站」、「自動氣象站」、「農業站」站點。

Filter the map on the right by checking whether to display "CWA Station", "Auto

Precipitation Station", "Auto Weather Station", and "Agriculture Station".

- 藉由「撤銷站 顯示/不顯示」、「區域」、「縣市」、「站名/站號」、「平地/山區」、「高度」，來縮小搜索範圍，右方地圖顯示站點也隨之增減及縮放。

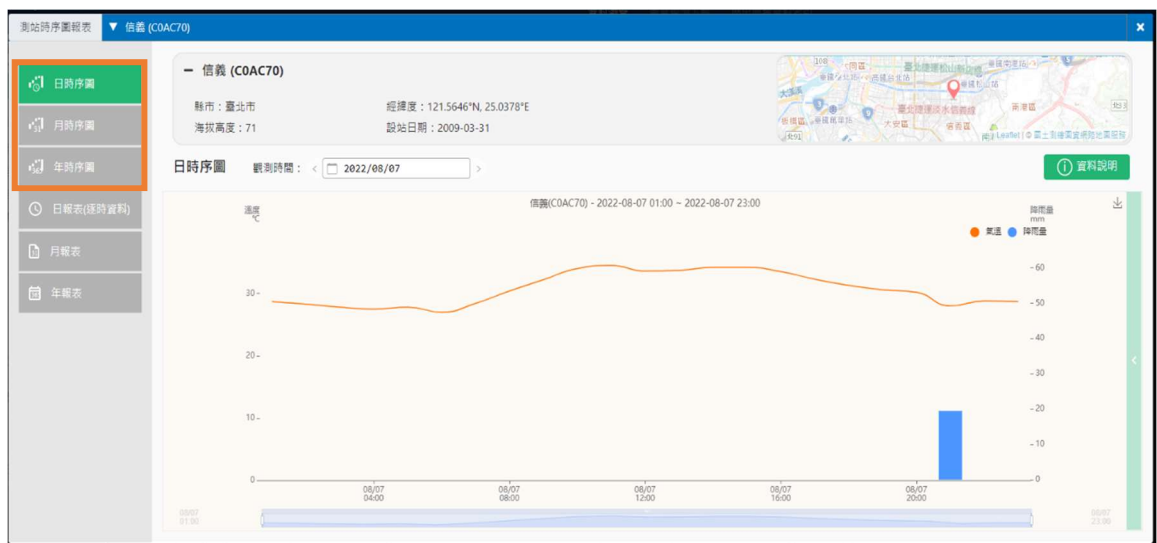

Search by "Hide/Display Discontinued Station stations", "Area", "County", "Station Name/Station ID", "flat ground/mountain", "Altitude". The scope, the map on the right shows that the sites are also increased, decreased and scaled accordingly.

- 點選欲搜尋之測站，如信義站。(Click on the station you want)

The screenshot shows the CODIS website interface. On the left, there are search filters for station types (Local, Automatic Rain, Automatic Weather, Agricultural), discontinued stations (Hidden/Visible), region (Northern Area), county (Taipei), station name/ID, terrain (Flat/Mountain), altitude, and start date. A map of Taipei is displayed with a station marker. A red box highlights the filter section, and another red box highlights the station marker on the map. A red text label '點選右方地圖標示站點' points to the marker. A pop-up window shows station details for COAC70, including its name, height, coordinates, address, and observation items.

- 

- 點選資料圖表展示。(Click Data Display)

- 

- 可點選「日時序圖」、「月時序圖」、「年時序圖」，檢視氣溫折線圖及降水量長條

圖。(Click "Daily/Monthly/Yearly Time Series")

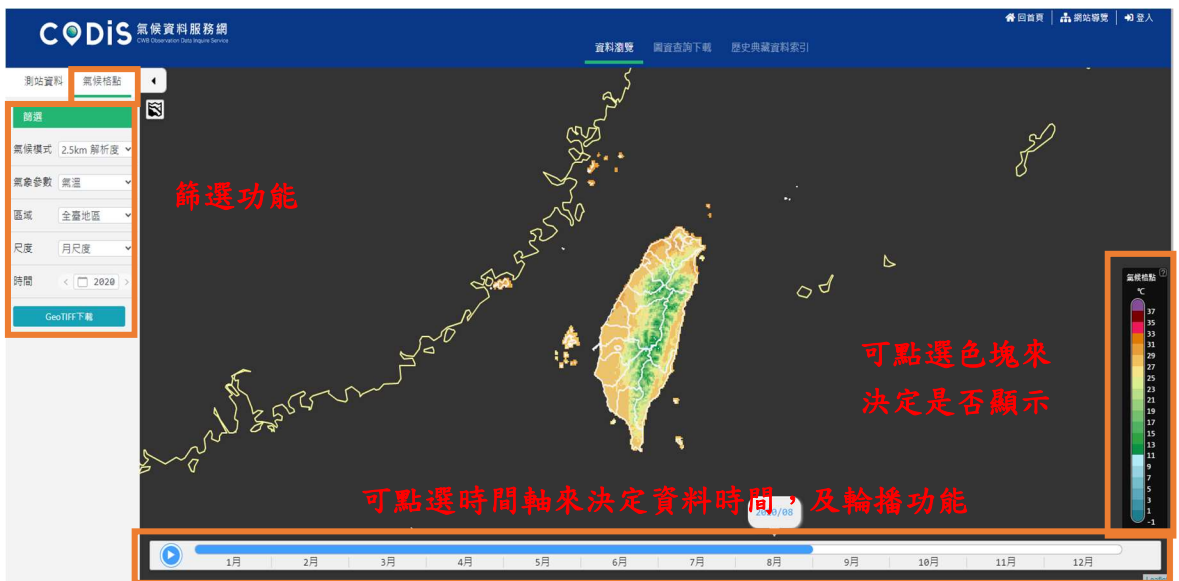

9、

10、可點選「日報表」、「月報表」、「年報表」，檢視逐時、逐日、逐月觀測資料報表。

(Click "Daily/Monthly/Yearly Report")

### 三、氣候格點(Climate Grid Data)

1、

2、可藉由左方篩選功能來決定「氣象參數」、「顯示區域」、「時間」。

Search by "Climate Model", "Weather Parameters", "Area", "Time Scale", "Time".

3、藉由右方色BAR點選與否來決定是否示該色塊。

Determine whether to display the color block by clicking on the color BAR on the right.

4、藉由下方時間軸可決定資料時間及是否輪播。

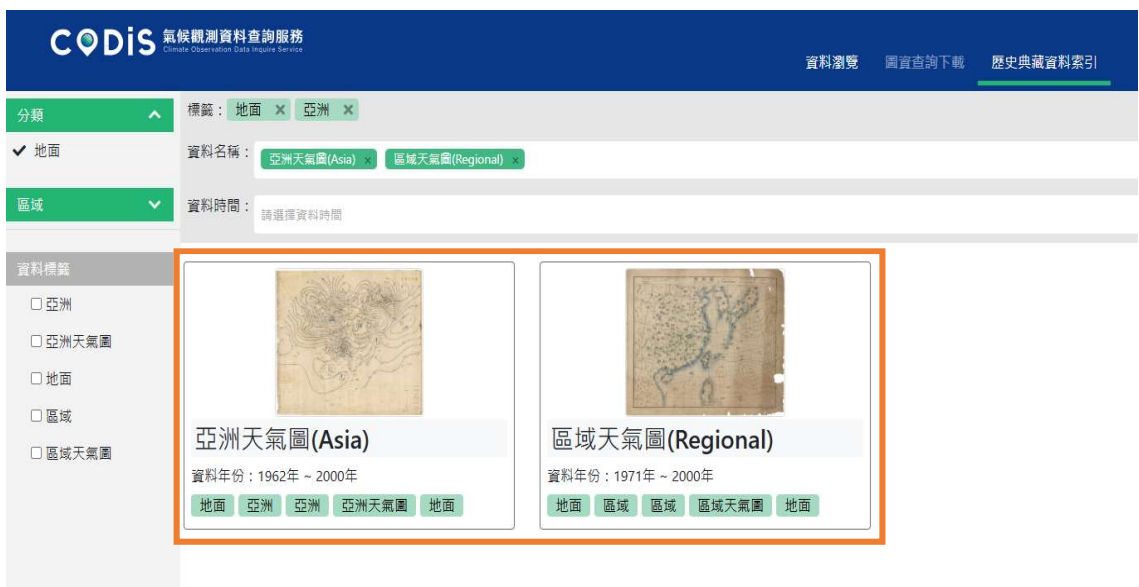

Use the timeline below to determine the data time and whether to rotate it.

### 四、歷史典藏資料(Historical Collection Data)

1、點選「歷史典藏」資料索引。(Click "Historical Collection Data")

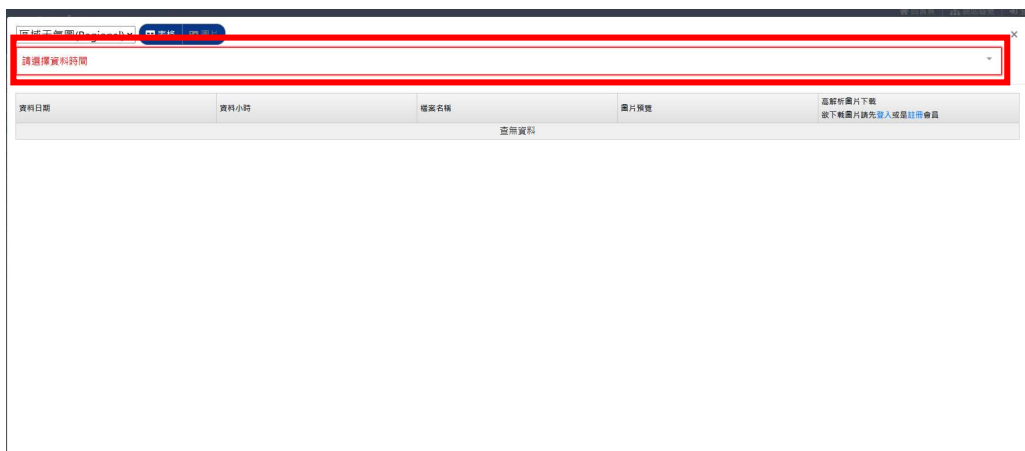

2、

3、

4、點選天氣圖。(Click Weather Chart)

5、

6、點選紅框處選擇資料時間，檢視相關天氣圖。

Click the red box to select the data time and view the relevant weather chart.
